

ACCESSORIES

KEYPADS & PUSH BUTTONS

STANDARD & CUSTOMIZED SOLUTIONS

APPLICATIONS

Several types of standard push buttons and keyboards are available to be used with our standard PCBs.

With more than 15 years of experience in rubber push buttons and keypads Nordgas can design every kind of solution to meet the customer needs. With our experience we can suggest to our customer how they have to design the plastic box to avoid any kind of push button lock.

- Single rubber push buttons
- Rubber keypad
- "Technical keypad" - used to be covered by plastic caps
- Every kind of surface treatment
- Membrane keyboards
